

# *Success Story*

## *Beverage Inspection System*

### *(P1153-822)*

William AU  
Sales Division II  
Jan. 2013

# *Customer Background*

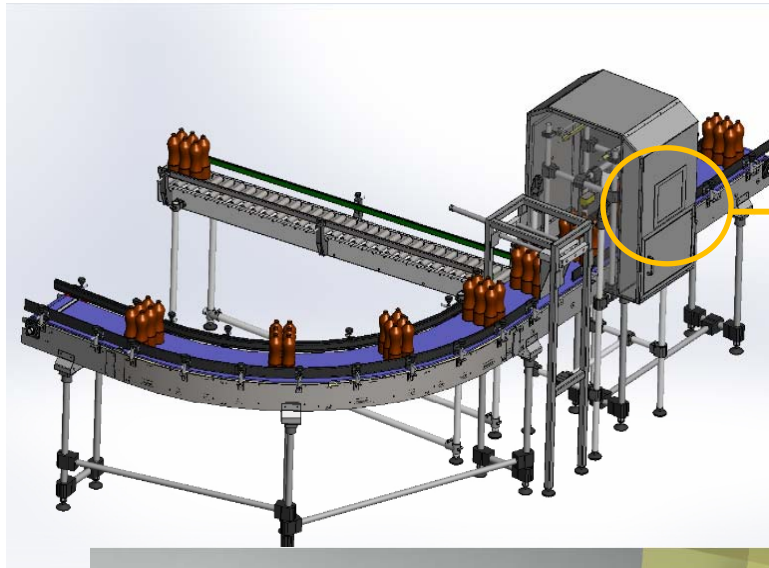

Located in Europe, the customer specializes in the field of Sensors, Switching technology, Machine Vision & communications, etc. Started with sales and distribution business with principals like (Hans Turck, Hirschmann...) but now doing also engineering tasks like SCADA systems, PLC programming, machine reconstruction and special Vision inspection system applications.

They are looking for a 15” Panel PC with good system performance which will be placed in a beverage factory as an Inspection System to control the goods quality.

# *Application*

## *- Beverage Inspection System -*

**P1153-822**

# System Configuration

▶ P1153-822

- Expandable panel computer with 15" XGA TFT LCD display
- Intel® 910GMLE + ICH6M / Socket 478 for Intel Pentium M / Celeron M processor with FSB 400Mhz
- Industrial-grade material front bezel: anti corrosion
